

Technical Information Sheet

FDT aluminium wall connection section, economy

Delivery form	Item Number
1 piece aluminium wall connection section, economy length 2 m	14 09 930

Description

FDT aluminium wall connection section economy is a 2 m long, 60 mm high profiled aluminium profile. Holes with a diameter of 8 mm have been pre-drilled at 150 mm distance for fixing the profile.

Application and processing

The FDT aluminium wall connection section economy is used to fix Rhepanol and Rhenofol roofing membranes to vertical surfaces (e.g. wall flashings). The top edge of the profile is usually sealed with a permanently elastic sealant.

Up to five fasteners per meter are possible.

Consumption

One piece of aluminum wall connection profile is sufficient for a 2-meter wall connection.

Properties

Technical data	Declared value
Material	Aluminium
Product Length	2,000 mm
Product height	60 mm
attachment	with suitable screws (depending on the substrate), not included in the scope of delivery
Hole spacing	150 mm
Hole diameter	8 mm

Storage

Keep dry in its original packaging.

Shelf life

Unlimited, provided it is stored correctly.

Precautions and occupational safety

General safety regulations must be observed.

Transport

General safety regulations must be observed.
